## Revel Linear Wall LED FL ADA T20

### DESCRIPTION

The Revel Linear Wall sconce light by Tech Lighting captures light in motion. The sleek metal surface is laser-cut with horizontal slots which allow light to shine through the inner White diffuser. Optional wood end caps complement the design with a touch of warmth in an unexpected way. A bottom glass diffuser provides a glare free wash of light onto surfaces below. This motion inspired sconce scales at 6" in width and 27" in length making it a great solution for bathroom lighting, hallway lighting and bedroom lighting flanking two end tables. For even further design freedom the Revel sconce can be mounted vertically or horizontally. Also included in the Revel family are three other complementary fixtures, Revel Linear Wall, Revel Pendant and Revel Linear suspension, simply search Revel Wall to find its closest relatives. Your choice of fully dimmable integrated LED lamping ships with the Revel saving you both time and money. Includes 19 watt, 541.5 total delivered lumen, 2700K LED module. Dimmable with low-voltage electronic dimmer. ADA compliant. Mounts horizontally or vertically.

satin nickel
